Poly Studio G62 Release Notes

This document provides end-users and administrators with information about a specific release of the featured product.

- [Poly Studio G62 Release Notes](#)
Poly announces the new release of Poly Studio G62.
- [Product resources and additional information](#)
This section provides resources and additional information for your product.

Poly Studio G62 Release Notes

Poly announces the new release of Poly Studio G62.

Software version: 4.1.5

Release date: June 2024

This Poly VideoOS software build includes the following device software versions:

- Poly TC10 / Poly TC8 TCOS 6.0.0
- Poly Microphone IP adapter 3.0.1
- Poly IP table microphone 3.0.0
- Poly Studio E70 camera 1.8.3
- Poly Studio E60 camera 1.0.3.3

- [Introducing Poly Studio G62](#)
Poly Studio G62 is a modular room video conferencing system capable of running Poly VideoOS and native third-party applications. At launch, Microsoft Teams Rooms and Poly Video mode are supported.
- [Supported peripheral connections](#)
Poly Studio G62 supports the following peripheral connectivity:
- [Set up your system](#)
Before powering on your Poly Studio G62 system for the first time, connect a monitor, camera, microphone, and audio output to the system.
- [Supported conferencing applications](#)
This release supports the following conferencing applications.
- [Updating your system](#)

Before using your system, update it to the latest Poly VideoOS version.

- [Products tested with Poly VideoOS 4.1.5](#)

Poly products are tested extensively with a wide range of products. The following tables provide information on the products tested for compatibility with this release.

- [Supported peripherals on the Poly Studio G62 system](#)

The Poly Studio G62 system supports the following video and audio peripherals.

- [Supporting documentation](#)

Reference the following documentation for information on setting up, configuring, and using your Poly Studio G62 system.

- [Known issues in Poly VideoOS 4.1.5](#)

Review the new known issues in this release.

- [Resolved issues in Poly VideoOS 4.1.5](#)

There are no resolved issues documented in this release.

Introducing Poly Studio G62

Poly Studio G62 is a modular room video conferencing system capable of running Poly VideoOS and native third-party applications. At launch, Microsoft Teams Rooms and Poly Video mode are supported.

Note Poly Studio G62 ships with Poly VideoOS 4.1.5. Update your system to Poly VideoOS 4.2.0, at minimum, as part of setting up your system.

You can mount your Poly Studio G62 using the supplied magnetic feet or the optional magnetic plate. For information on mounting your Poly Studio G62 system, review the *Poly Studio G62 Quick Start Guide*.

- [Poly Studio G62 product overview](#)

The Poly Studio G62 system is an Android-based video conferencing system with HDMI, IP LLN, and USB connections to support custom conference rooms.

- [Poly Studio G62 system ports](#)

The following diagram describes the ports available on a Poly Studio G62 system.

- [Poly Studio G62 LED behavior](#)

Use the LED on the front left corner of the Poly Studio G62 system to get information on the state of your system.

Poly Studio G62 product overview

The Poly Studio G62 system is an Android-based video conferencing system with HDMI, IP LLN, and USB connections to support custom conference rooms.

Poly Studio G62 is designed with simplified mounting and PoE+ power, so you can place it behind a display, under a table, or in an AV rack. The Poly Studio G62 system supports Poly audio and video products over IP LLN as well as Poly and third-party products over USB.

The Poly Studio G62 system brings the following functionality to your conferencing space:

- Audio innovations such as NoiseBlock AI
- Sound Reflection Reduction
- DirectorAI camera framing and tracking
- Configurable second network port for accessories
- Dual monitor 4K video
- Flexible installation with cable management
- USB-C DP Alt Mode port for content and device mode
- Wireless content sharing using Airplay or Miracast

Poly Studio G62 system ports

The following diagram describes the ports available on a Poly Studio G62 system.

Table 1. Poly Studio G62 Ports

Item	Port	Description
1	3.5 mm output	Connects speakers to the system.
2	3.5 mm input	Connects microphones to the system.
3	USB Type-A ports (3.0)	Connects USB cameras or USB audio DSPs.
4	HDMI input	<p>Provides the following options:</p> <ul style="list-style-type: none"> Connects an HDMI content source or HDMI camera. Use the system monitor when connected to a computer HDMI port. <p>Provides content sharing capabilities.</p>
5	USB Type-C port	<p>Provides the following options:</p> <ul style="list-style-type: none"> Use the system camera, speaker, and microphone from a connected laptop. Use the system camera, speaker, microphone,

Item	Port	Description
		and monitor using a DP Alt-mode connection. Requires a supported DP Alt-mode cable and a computer with a USB Type-C port that supports DP Alt-mode.
6	Pinhole reset	Factory resets the system.
7	HDMI 2	Connects a secondary monitor.
8	HDMI 1	Connects a primary monitor.
9	LLN port	Connects IP peripherals such as a Poly IP microphone or Poly IP camera. This port doesn't provide power. A PoE switch or PoE injector is required to power IP peripherals connected to the LLN port.
10	PoE+ power input	Powers the Poly Studio G62 system using a class 4 PoE+ injector or PoE+ switch. Provides access to the corporate network.
11	Security lock	Physically secures the system.

Poly Studio G62 LED behavior

Use the LED on the front left corner of the Poly Studio G62 system to get information on the state of your system.

Table 1. Poly Studio G62 LED Behavior

Indicator	Status
Blinking white	Powering on
Solid white	Powered on
Solid green	In a call
Blinking amber	Update in progress
Solid amber	Sleeping
Blinking red	Error preventing normal operations
Solid red	Muted microphone

Supported peripheral connections

Poly Studio G62 supports the following peripheral connectivity:

Note The Poly Studio G62 LLN port is for data connectivity only and doesn't provide power to connected peripherals.

Cameras

- LLN port

One Poly Studio E70 connected to the Poly Studio G62 LLN port

- USB-A ports
Connect up to two USB cameras to the USB-A ports

Audio

You can connect audio devices using the Poly Studio G62 3.5mm ports, LLN port, or USB-A ports.

- LLN port
Connect up to three Poly IP microphones
- 3.5mm ports
Connect a soundbar, microphones, or amplifier to the system.
- USB-A ports
Connect a supported USB audio DSP

Controllers

- Poly TC10
- Poly TC8
- Touch screen monitor
- Poly Bluetooth remote control (Poly Video Mode only)
- Poly IR remote control (Poly Video mode only)

Monitors

- HDMI 1 and HDMI 2 ports
Connect two 4K displays to the system

Content sharing and Device Mode

- USB-C Alt DP port
Connect a supported Alt DP cable to a Alt DP capable USB-C port on your computer to use the system speakers, microphones, camera, and monitors from your system.
Currently the following cable is supported: HP 1.83Meter / 6' USB-C to C cable: (L07087-002)

Set up your system

Before powering on your Poly Studio G62 system for the first time, connect a monitor, camera, microphone, and audio output to the system.

Note Before powering on your Poly Studio G62 system, connect all components. If you need to add or remove a USB peripheral, power off the system.

The following setup uses Poly IP microphones and a 3.5 mm sound bar speaker for audio. Alternatively, you can connect a supported USB audio DSP to your system.

Procedure

- 1 Mount the Poly Studio G62 using the magnetic feet or mounting plate.

For more information on mounting your Poly Studio G62, see the *Poly Studio G62 Quick Start Guide*.

- 2 Connect an HDMI cable from the HDMI 1 port on a monitor to the Poly Studio G62 HDMI 1 port.

- 3 **Optional:** To view participants and content simultaneously, connect a second monitor to the Poly Studio G62 HDMI 2 port.

- 4 Connect a microphone, such as a Poly IP table microphone to a PoE injector or supported Netgear A/V Line M4250 GSM4210PD.Ethernet switch.

Connect the Ethernet switch or PoE injector to the LLN port on the Poly Studio G62.

- 5 Connect a speaker, such as a JBL Pro SoundBar PSB-1, to the 3.5 mm audio output port on the Poly Studio G62 system.

On the JBL Soundbar, set the Source Volume to Variable and the Volume to Low.

- 6 To power on the Poly Studio G62, connect the system to a PoE+ class 4 power injector or Ethernet switch.

Connect the power injector or Ethernet switch to your network.

- 7 Connect a Poly TC10 or Poly TC8 touch controller to a PoE Ethernet port on the same subnet as your Poly Studio G62.

Follow the out-of-box instructions on the Poly TC10 or Poly TC8.

- 8 If necessary, factory reset your Poly TC10 or Poly TC8 to initiate the out-of-box setup.

Supported conferencing applications

This release supports the following conferencing applications.

At launch, Poly Studio G62 supports Microsoft Teams Rooms and Poly Video mode.

Certification is pending for other providers including Zoom Rooms, Google Meet, Tencent, GoTo Room, and Ring Centra.

Table 1. Conferencing applications

Conferencing application	Version	Features
Poly Video	4.1.5	New release to support Poly Studio G62
Poly Device Mode	4.1.5	New release to support Poly Studio G62
Microsoft Teams Rooms	Admin Agent: 1.0.0.202310260109.produc t Teams: 1449/1.0.96.2024020802 Company Portal: 5.0.6061.0	<ul style="list-style-type: none"> ● Maintenance release ● For more information on this Microsoft Teams Room release, visit the Microsoft Teams Rooms website

Updating your system

Before using your system, update it to the latest Poly VideoOS version.

Note Poly Studio G62 ships with Poly VideoOS 4.1.5. Update your system to Poly VideoOS 4.2.0, at minimum, as part of setting up your system.

Update your system to the latest Poly VideoOS version in one of the following ways:

- During the out-of-box setup, accept the prompt to update your system
- Access the system web interface
- Onboard your system to Poly Lens Cloud

Observe the following regarding supported Poly VideoOS versions for Poly Studio G62:

- Poly Studio G62 supports Poly VideoOS 4.2.0 and later releases.
- Poly Studio G62 ships with Poly VideoOS 4.1.5 software, which you can't downgrade to a previous release.

For information on updating your Poly Studio G62 system, review the [Poly Video Mode Administrator Guide](#).

Products tested with Poly VideoOS 4.1.5

Poly products are tested extensively with a wide range of products. The following tables provide information on the products tested for compatibility with this release.

Poly strives to support any system that is standards-compliant, and Poly investigates reports of Poly systems that don't interoperate with other standards-compliant vendor systems.

Poly recommends that you upgrade all your Polycom / Poly systems with the latest software versions. Any compatibility issues may already have been addressed by software updates.

The following list isn't a complete inventory of compatible equipment, but the products that have been tested with this release.

Table 1. Poly peripherals and applications

Product	Tested version
Poly Studio E70 camera	1.8.3-508010
Poly Studio E60 camera	1.0.3.3
Poly IP Table Microphone	3.0.0-1133
Poly IP Ceiling Microphone	3.0.0-1133
Poly TC10	6.0.0-211616
Poly TC8	6.0.0-211616

Table 2. Partner applications

Product	Tested version
Microsoft Teams	1449/1.0.96.2024020802

Supported peripherals on the Poly Studio G62 system

The Poly Studio G62 system supports the following video and audio peripherals.

Instructions and recommendations in this section are based on Poly Studio G62 functionality with Poly VideoOS 4.2.0.

Table 1. Supported cameras and video bars on Poly Studio G62 systems

Peripheral	Poly Video Mode	Device Mode	Microsoft Teams Rooms
Poly Studio E70 camera (USB) (supports up to two cameras)	Supported	Supported	Supported
Poly Studio E70 camera (IP LLN) (only one camera can be connected over IP LLN)	Supported	Supported	Not Supported
Poly Studio E60 camera (USB) (supports up to two cameras)	Supported	Supported	Supported
Poly Studio E60 camera (IP LLN)	Not Supported	Not Supported	Not Supported
Poly EagleEye IV USB camera	Supported	Supported	Supported

Table 2. Supported audio peripherals on Poly Studio G62 systems

Peripheral	Poly Video Mode	Device Mode	Microsoft Teams Rooms
Poly IP Ceiling Microphone (up to three IP microphones supported)	Supported	Supported	Supported
Poly IP Table Microphone (up to three IP microphones supported)	Supported	Supported	Supported
Poly Trio C60 (up to four supported)	Supported	Supported	Poly Trio C60 (one supported) (audio only)
Biamp DSP USB audio processors	Compatible	Compatible	Compatible
QSC Core Series audio processors	Compatible	Compatible	Compatible
Shure IntelliMix P300 audio conferencing processor*	Compatible	Compatible	Compatible

*The Shure Intellimix P300 is a Microsoft Certified peripheral.

Table 3. Supported controllers on Poly Studio G62 systems

Peripheral	Poly Video Mode	Device Mode	Microsoft Teams Rooms
Poly TC10 touch controller	Supported	Supported	Supported
Poly TC8 touch controller	Supported	Supported	Supported
G7500 Bluetooth remote	Supported	Supported	Not Supported
IR Remote	Supported	Supported	Not Supported
Touch Display	Supported	Supported	Supported

Known issues in Poly VideoOS 4.1.5

Review the new known issues in this release.

Note Poly strongly recommends that you update to the latest version as part of system setup or immediately after setting up the system. Updating your system ensures that you have access to the latest features and functionality for your Poly Studio G62 system.

Table 1. Known issues

Category	Issue ID	Description	Workaround
Calling	EN-250298	In Teams Rooms mode, you can't leave call while a whiteboarding session is in progress.	End the whiteboarding session before leaving the call.
Calling	EN-248844	In Teams Rooms mode, the dialpad is different out of a call than when in a call.	No workaround.
Camera	EN-252763	In Teams Rooms mode, camera presets don't work.	No workaround
Camera	EN-251114	In Zoom Rooms, after hog plugging a camera, some PTZ buttons don't work.	Turn the system off before plugging in a USB camera. Hot plugging cameras isn't supported.
Camera	EN-248805	EagleEye IV produces low quality video in Poly Video mode.	No workaround.
Camera	EN-248330	In Teams Rooms mode, Poly TC10 shows the incorrect meeting camera status.	No workaround.
Content sharing	EN-251095	In Teams Rooms mode, meeting connection drops when an HDMI input is plugged in.	No workaround.
Content Sharing	EN-251392	Content sharing doesn't display the correct content states.	No workaround.

Category	Issue ID	Description	Workaround
Device management	EN-253695	The system goes asleep and allows soft update during an active Zoom Rooms call.	No workaround.
Partner application	EN-252884	No update for Studio G62 on TAP.	No workaround.
Partner application	EN-249245	On a Poly TC10 in Tencent mode, the end meeting menu is incomplete on the display.	No workaround.

Resolved issues in Poly VideoOS 4.1.5

There are no resolved issues documented in this release.

Note These release notes don't provide a complete listing of all resolved issues that are included in the software. User experience updates, performance fixes, and enhancements may not be included. In addition, the information in these release notes is provided as-is at the time of release and is subject to change without notice.
